

## CONFERENCE TRANSFORMATIONS LEARNING FROM TRANSFORMATIVE ACTION AND THINKING 2019

### Chile, a Country of Social and Geographical Contrasts

#### Participate in Our Tours

The tours we offer are designed so that Transformations 2019 participants can learn about the contrasts, the two faces of Chile.

Chile is a country of contrasts. Its varied geography consists of a broad spectrum of landscapes and climatic zones: from the heights of the Andes mountains to the mystery of Rapa Nui (Easter Island), from the southern glaciers to the driest desert in the world in the north, the Atacama Desert that blooms every 10 years, and this year will be in bloom in October. The contrasts also live in the culture and in the painful deep social inequalities [see more](#)
